

Partnering with MCI

About Us

Located in Johannesburg, South Africa, MCI is a leading provider of software solutions to the financial services and recruitment industries.

MCI is a financially stable business which has experienced a consistent growth over the last 15 years due to its ability to deliver turnkey solutions to its clients.

Currently we have a staff complement of circa 40 which includes BCom's and B.Sc's. Collectively, we have a skill pool comprising marketing, project management,

network and communications services, systems development, systems implementation and training. In order to attract and retain staff, MCI operates on a partnership basis which has proven to be a successful model.

We have longstanding relationships with our clients which comprise primarily financial institutions, including members of the Johannesburg Stock Exchange, and various banks, local and international, and investment houses as well as the largest personnel recruitment companies in South Africa.

MCI's software solutions include a combination of third party products and software developed internally by MCI which we market, customize and integrate according to a client's requirements.

Third party products include accounting (ACCPAC), Business Intelligence/ Business Performance Management (IBM Cognos TM1), and recruitment, staffing and Vendor Management systems (Bond Adapt and Bond Talent).

Our services include:

- Wealth Management Solutions for the Stock Broking Community which includes specific products developed by MCI including trading, portfolio, web-based systems and mobile solutions
- The Development of Applications for the Mobile Platform
- Web-Design and Development including Content Management
- Financial Performance Management
- Business Performance Management Solutions within the banking and airline industries
- Software Solutions for the Recruitment Industry
- Implementation of the Accpac range of accounting software
- Networking and Communications services

Partnering with MCI

MCI's product portfolio has been developed specifically for the financial services industry:

- Trading (TradeCIS)
- Portfolio management and unit trusts (PortCIS),
- Web-based trading and on-line portfolio's (NetCIS)
- Commission tracking (CommCIS)
- Mobile trading
- And a mobile sms application

Our systems are sold on a monthly rental basis and in some instances provided on a "Software as a Service" basis.

Geographically, our focus has been primarily on the South African market however we have extended our BPM services into Africa including Kenya, Tanzania, Mozambique, Ghana, Uganda, Botswana, Zambia, Zimbabwe, Seychelles and Mauritius.
