

Adapt v11 adoption gains momentum

MCI Consultants, the exclusive distributor for Bond International Software in South Africa and the largest distributor of staffing software in South Africa, today announced that the adoption of Adapt v11, the Web-based hosted solution of the world's most advanced recruiting system and one utilised by all of the world's top ten recruiting firms is rapidly gaining momentum in the local market.

“Already Talent Network, a national, collaborative network of specialist recruiters, search consultants and HR service providers and Drake International have implemented this latest version of the Adapt software,” commented Rhett Davies, Business Partner at MCI Consultants, “and, in the case of the latter, all their branches nationally have now been covered.”

“This latest version, which is a fully hosted solution, helps reduce costs in this very competitive environment,” continued Davies. “This on-line version offers significant advantages including web-site integration and back-up capabilities, as well as embracing candidates obtained through social media sources.”

“Adapt v11, which is simple to deploy and run, is also mobile-enabled thus providing an access capability from anywhere and at any time” concluded Davies. “Thus by focusing time on more profitable areas, Adapt can improve the productivity of both individuals and teams, as well as giving a fast Return on Investment with low and predictable operating expenses.”

For further information, please contact Rhett Davies, MCI: tel 011 454-3420, fax 011 454-3417, e-mail Rhett@mci.co.za

Editors note
