

FOR IMMEDIATE RELEASE

## **MCI announces the launch of Direct Hire V2, it's most advanced recruitment software to date**

MCI Consultants, the developer of Direct Hire Recruitment Software, today announced the launch of Direct Hire Version 2.

“The development of Direct Hire Version 2 has been an ongoing project since 2015 and has been a labour of love for our development team. This passion and dedication has resulted in the creation of the most advanced and effective online recruitment software platform available to date.” commented Rhett Davies, Business Partner at MCI Consultants.

“Direct Hire version 2 is a major upgrade to the platform and has made recruitment easier than ever for our clients and their candidates. This is achieved through our cutting edge tech which further automates recruitment processes and ensures even greater efficiency. Direct Hire V2 has new beautifully designed interfaces and dashboards which deliver a terrific user experience. The system’s ability to manage all HR recruitment workflow processes have been greatly enhanced and delivers ease of use unlike anything seen before.” continued Davies.

“Along with delivering the unmatched workflow management that Direct Hire is known for, it now also provides free advertising to selected online job portals, enhanced careers page SEO, free syndication to job aggregators, enhanced social media plugins, integration to verification companies, full mobile responsiveness and much more. One of the more impressive highlights of the new version is our integration with open source machine learning tools which makes our candidate CV search and reporting algorithms second to none.”

Direct Hire is a powerful, versatile and easy to use cloud hosted HR Recruitment software solution for medium-sized and large organisations that has been specifically designed and developed to automate the requisition-to-hire process for HR departments.
