

**FOR IMMEDIATE RELEASE**

## **MCI becomes a certified business partner for Sage Enterprise Management Solutions**

MCI Consultants today announced that they have become an official Sage Enterprise Management Partner, enhancing their service offering to include implementation, training and support for both Sage 300 as well as Sage Enterprise Management (previously Sage X3).

MCI has partnered with experienced Sage Enterprise Management consultants, who have extensive experience in delivering Sage EM solutions. With more than 20 years' experience in delivering specialist software solutions to medium and large sized corporations, MCI is a well-versed authority and has ample experience with Sage systems. Having successfully completed over 500 installations over the last 2 decades, MCI's Sage consultants have the expertise to provide a turnkey solution to clients.

Sage is a global leader in mid-market business management from small businesses to corporate enterprises. Sage's installed base includes more than 550 000 registered clients in over 100 countries worldwide.

For more information, please contact Tonya Harvey [t.harvey@mci.co.za](mailto:t.harvey@mci.co.za), MCI tel: 011 454 3420.

### **Editor's note**

MCI is a leading provider of software solutions to medium and large sized corporations. MCI Consultants provides a holistic service through internally developing and tailoring business solutions to meet specific requirements, while also installing and providing service support for third party business solution products. MCI is based in Johannesburg, South Africa, but has managed to expand and conduct business across Africa, and abroad.

We always strive to give our clients what they require, plus a little bit more. With customer satisfaction being our measure of success, our priority is delivering solutions which fulfill unique needs. For instance, we'll set up Sage to suit company specific requirements; write customised reports; and interface Sage to other strategic systems if required.

MCI's key differentiator is that we provide customised turnkey solutions to suit our clients' changing requirements from product development right through to support services.
